ANCHORED IN HONOR

Founded in 2017, Giesler LLC is a WOSB/SDVOSB delivering C4ISR systems integration, Network Operations and Information Assurance, Systems Engineering, Cybersecurity, Open Architecture Configuration Management and Software Development support across Navy and DoD programs. We combine operational fleet experience with rigorous program execution — including program management and professional services — and deep domain expertise across NAVWAR, NAVIFOR, DISA, and DLA environments.

WHAT WE DO

Cybersecurity & RMF

- RMF / A&A, Authorization & FISMA reporting
- STIG implementation & vulnerability remediation
- ICS / SCADA cybersecurity (DoD Directive 8500.1)
- ATO sustainment & SRR support

Ensuring modernization efforts preserve operational cyber readiness.

Systems Engineering & C4ISR

- Fleet C4ISR systems engineering — afloat & shore
- CANES Tier III support & GCCS administration
- SIGINT software development (PMW-120)
- NC3, JADC2, MPE integration experience

Operationally grounded experience in deployed Navy environments.

Program & Technology Integration

- Naval communications systems (NCTAMS PAC / LANT)
- Mission systems engineering & integration
- Containerized app deployment in classified environments
- Configuration management & baseline control

CEO-level attention — not a line item on a large portfolio.
